

Press Release

Introducing the world's fastest water scooter... SEABOB - the ultimate luxury sea toy

22 April 2010

FOR IMMEDIATE RELEASE

If you want to be seen with the ultimate luxury sea toy this summer, SEABOB is the answer. Delivering a powerful thrust of up to 7HP, the world's fastest water and diving scooter is now available in the UK to the discerning buyer.

Manufactured by Cayago in Germany incorporating cutting edge technology, the SEABOB is controlled by ten gears and reaches speeds of up to 22 km/h on the surface, and up to 18 km/h at depths of up to 40 metres, making it the fastest craft of its type on the market, (SCUBA gear not included).

By shifting weight, the operator can steer the SEABOB with ease. With gentle downward pressure you'll be diving under the surface for the ultimate adrenaline-fuelled ride or just go for pure speed through the waves.

With its unique design and exceptional performance, the SEABOB has won a host of awards including the Good Design Award USA and is also the Red Dot Design Award Winner. With a chrome display panel and eye-catching design in your choice of eight stunning colours, the high-performance sea scooter is attracting some of the world's most exclusive customers looking to stand out from the crowd.

The SEABOB is equipped with a patented E-jet power drive providing emission-free speed and performance with zero maintenance. The energy for the drive box mechanism comes from an accumulator box with exceptionally efficient SEABOB-Power High-Energy Li-ion accumulators providing a powerful yet agile ride.

In addition to the top of the range SEABOB CAYAGO F7, the range comprises of the SEABOB CAYAGO VX2, SEABOB JET 4.12 and the SEABOB RAVEJET.
